to the coordinators**

ORGANISATION

Lectures will be given by European specialists on the origins of life, space environment, the role of gravity in molecular, cellular, animal and plant behavior, and the use of molecular tools in space biology. Additionally there will be data analysis workshops, and students working in small multinational groups will present a project design.

OBSERVATOIRE OCÉANOLOGIQUE

Laboratoire Arago
F 66 650 Banyuls-sur-Mer
Université Pierre-et-Marie-Curie.
